

Ali Seena Ahmadi

Sydney | 0470419685 | ali_seena1@outlook.com | www.alicloudnet.link

A disciplined IT graduate with experience in AWS services, network configuration and troubleshooting. A proactive team player who collaborates well, takes initiative, and delivers reliable technical outcomes. Strong interest in cloud infrastructure, networking, and continuous skill development.

Skills

- Problem-solving
- Time Management
- Task Prioritisation
- Team Collaboration
- Microsoft Windows Server
- AWS Cloud services
- Network Design and Troubleshooting
- LAN/WAN Configuration
- Routing and Switching
- VPN Technologies

Experience

CyberCert Intern – AWS Cloud Centralised Logging

February 2026 – May 2026

- Designed and implemented a centralized logging solution on AWS, supporting multi-account architecture using AWS Control Tower for secure account governance and environment standardization.
- Provisioned and managed cloud infrastructure using Terraform, including writing reusable modules, importing existing AWS resources into Terraform state, and maintaining infrastructure-as-code best practices.
- Integrated and configured AWS Config to enable continuous compliance monitoring, resource tracking, and governance across multiple AWS accounts.
- Assisted in architecting and deploying logging pipelines leveraging AWS services to ensure secure log ingestion, storage, and analysis.
- Collaborated in Agile workflows through daily stand-ups and sprint planning, improving team coordination using tools such as Notion and Figma for documentation and architecture design.
- Contributed to technical documentation, architecture diagrams, and implementation guides to ensure knowledge transfer and operational clarity.

Personal Portfolio Website – AWS Cloud and CI/CD Project

December 2025 – January 2026

- Designed a cloud-native static website hosting solution using AWS managed service AWS Amplify, leveraging its managed integration with Amazon S3 and CloudFront for scalable and secure static web hosting.
- Registered and managed a custom domain using Amazon Route 53, including DNS configuration.
- Integrated GitHub CI/CD pipeline with AWS Amplify to enable automated builds and deployments on every code push, ensuring rapid and reliable updates.

Ali Seena Ahmadi

Professional Experience

Western Sydney University, Sydney | July 2024 – November 2024

- Researched and evaluated technologies to develop cross-platform mobile applications for iOS and Android.
- Research hosting options for the app website and background services required to ensure scalability and reliability.
- Effectively collaborated with a team under the supervision and guidance of a supervisor, participated in client meetings and provided technical recommendations.
- Contributed to project documentation, including the project proposal, cost analysis, use cases and testing plan.
- Interacted respectfully with team members, supervisor and client to offer ideas, identify issues, and provide assistance.

Virtual Industry Experience

Practera, Sydney | March 2023 – June 2023

- Conducted research to identify potential funding sources for an NGO.
- Prepared a comprehensive report outlining viable funding options.
- Effectively collaborated with a team to achieve the goal

Infrastructure & Networking Labs / Simulations

Personal and academic labs

- Built and maintained multi-VLAN network labs using Cisco simulation tools to emulate enterprise and data centre environments.
- Installed and managed complex ICT networks with redundancy, monitoring, and change control.
- Documented root cause and remediation steps for simulated outages and hardware/network failures.
- Followed structured workflows similar to ticket-based operational environments.

Education

Bachelor's in ICT 2024

Western Sydney University, Sydney

Advanced Diploma in ICT Networking 2021

TAFE, Sydney

Diploma in ICT Networking 2021

TAFE, Sydney

Certificate IV in ICT 2020

TAFE, Sydney

Certificates

- NDG Linux Unhatched
- AWS Cloud Practitioner
- Certificate of Appreciation – WorldSkills Australia Network Administration Competition
- Certificate of Appreciation – Second position in Regional Cloud Competition
